Scheduling Transactions with Temporal Constraints: .. - Xiong.. (Correct) (10 citations)
condition 1, to perform a more precise check. To **implement** FWR policy, three queues are maintained in the this paper, issues involved in the design of a real-**time** database which maintains data temporal consistency
www-ccs.cs.umass.edu/rtdb/paper/rtss96.ps

Probabilistic Job Scheduling for Distributed Real-time.. - Bestavros, Spartiotis (1993) (Correct) (4 citations)
tasks we use the results obtained in [3]Two **implement**ations of the EDF, respectively called EDS and Probabilistic Job Scheduling for Distributed Real-**time** Applications Azer Bestavros Dimitrios Spartiotis to the scheduling algorithm X in the **time interval** [0 t]to be f X Y (t) ae 1 if the
rtlab.kaist.ac.kr/~sikang/survey/BS93.ps.gz

Towards a Qualitative Theory of Movement - Galton (Correct) (12 citations)
occupies different positions in space at different **times**. Therefore a theory of movement must contain of temporal entities, usually either instants or **intervals**, which act as loci in the temporal dimension
www.dcs.ex.ac.uk/~antony/abstracts/../papers/qtm.ps.gz

Artificial Intelligence for Decision Support: Needs.. - Miksch (1995) (Correct)
These knowledge-based techniques are **implemented** and 5 evaluated in VIE-VENT, a monitoring and relevant continuous data and in reacting in a **time**-constraint, critical situation. Not only the underlying temporal ontologies: **time**-point-**time-interval**-trend-based, and **time**-independent validation.
ftp.ai.univie.ac.at/papers/oefai-tr-95-26.ps.Z

Transionospheric Signal Detection with Chirped Wavelets - Doser, Dunham (Correct)
utilized to detect dispersed signals in the joint **time**/scale domain. Specifically, pulses that become stress the area of the scalogram where the **time interval** of the LAPP signal has f h =f l 2, near the
www.utdallas.edu/~doser/as97paper.ps

Scheduling Access To Temporal Data In Real-Time Databases - Xiong, Sivasankaran.. (1997) (Correct) (3 citations)
condition 1, to perform a more precise check. To **implement** FWR policy, three queues are maintained, 1 Scheduling Access To Temporal Data In Real-**Time** Databases Ming Xiong, Rajendran Sivasankaran,

Clock Instability and its Effect on Time Intervals in.. - Dietz, Ellis, Starmer (1995) (Correct)
in the operating system. We also describe an **implementation** of a stable performance clock separate CS-1995-13 Clock Instability and its Effect on **Time Intervals** in Performance Studies Margaret A. Clock Instability and its Effect on **Time Intervals** in Performance Studies Margaret A. Dietz Carla
ftp.cs.duke.edu/pub/dist/techreport/1995/1995-13.ps.gz

Comparison of FD methods for solving the diffusion equation - Workpackage Wp (Correct)
methods have been run with different space and **time** discretization, and an absolute error was by a vector of temperatures in the present **time interval** to obtain a vector of temperatures in the next
parcae.ijs.si/~roman/confer/sorrento-bs.ps

Providing End-to-End Statistical Performance Guarantees with.. - Zhang (1994) (Correct) (26 citations)
of delay bounds, and simple so that it can be **implemented** at very high speeds. We present numerical stochastically bounds the number of bits sent over **time intervals** of different length. The model captures Statistical Performance Guarantees with Bounding **Interval** Dependent Stochastic Models Hui Zhang Edward W.
n1.sp.cs.cmu.edu/pub/hzhang/SIGMETRICS94.ps.gz

A Proof Tool for the Duration Calculus: Theory and Application.. - Heilmann (Correct)
and verification tool. It goes on to survey the **implementation** of PC/DC, a proof checker for Duration Denmark Abstract. This paper introduces the real-**time** logic Duration Calculus and the PVS specification Duration Calculus (DC) is a real-**time interval** logic for specifying and reasoning about
www.it.dtu.dk/~sh/Bremen96.ps.gz

Leader Election in Asynchronous Distributed Systems - Scott Stoller (Correct)

each node that is not the leader of a group calls a **Time**out procedure that checks whether the leader of its 4. Two nodes are connected in a given **time interval** if all messages sent between them during that Scott D. Stoller January 31, 1999 Abstract In a **class**ic paper, Garcia-Molina specifies the leader ftp.cs.indiana.edu/pub/stoller/leader-election-spec.ps
